

Area of Maths: Multiplication and Division

Skill: Solve one step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.

YOU WILL NEED...

Resources:

There are downloadable resources available to accompany this lesson.

Equipment:

You will need pencils and pens for this activity.

Instructions:

1. There are 15 multiplication stations around the hall (see resources).
2. The children are put in pairs and begin at different stations (allocated by the teacher). Alternatively, children can work by themselves.
3. Children visit each station in turn, following on from their original starting point.
4. Answer each question, completing the answer card as they go.
5. Just for fun, change the way the children move between each station, e.g. walk, run, slide, forwards, backwards, sideways etc..

Can you complete the course in 30 minutes?
