

Area of English: Writing

Skill: Choosing nouns and pronouns to aid cohesion

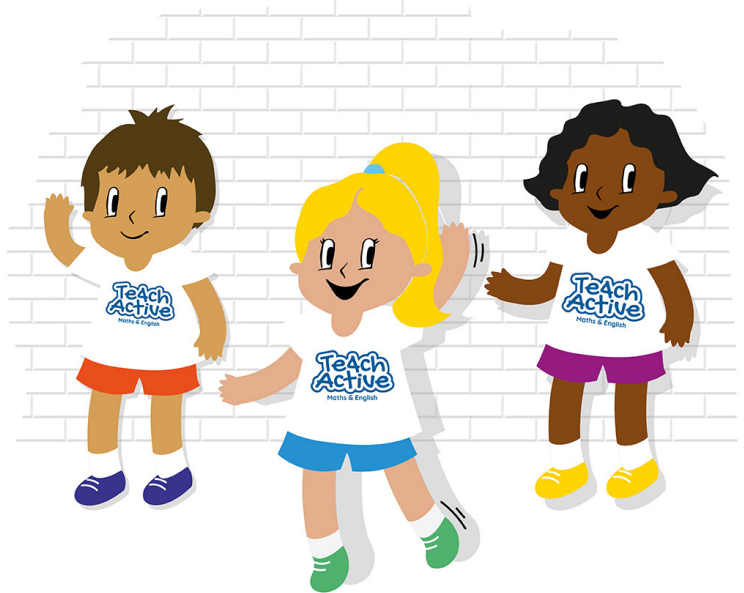

YOU WILL NEED...

Resources:

There are downloadable resources available to accompany this lesson.

Equipment:

Noun and pronoun cards, recording sheets, pens/ pencils.

Instructions:

1. Hide the name cards around the area (best played outdoors).
2. Put the children into small groups of 3/4 with each having a recording sheet. If you are working with a small group, each child can work by themselves if required.
3. Pupils need to search the area looking for the name and pronoun cards. When they find one, they need to write it in the first top box of their sheet.
4. They can then continue looking for another card. This time they will need to decide if it could go underneath the first word or whether it will start a new box.
5. This continues until the first team has completed all the boxes on their sheet.

Teacher Tip:

You can extend pupils to use dictionaries and thesauri to think of other examples for each of their word lists.
