

Area of Maths: Addition and Subtraction

Skill: Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.

YOU WILL NEED...

Resources:

There are downloadable resources available to accompany this lesson.

Equipment:

You will need pens/pencils and paper.

Instructions:

1. Scatter the 14 cards around the gymnasium (see resources) and put children into groups. Children start at any given number – the answer to the question will tell them which card to go to next.
2. The first group (or child if working independently) to complete the course correctly is the winner.
